#### **MESSAGE FROM THE PRINCIPAL**

Welcome to Monroe's eleventh annual Open House. We appreciate your attending. We hope that you will take advantage of this opportunity to visit your son's or daughter's teachers and to observe the various demonstrations and displays being offered for your information. This year's theme, "Education, Freedom's Foundation Stone", reminds us that the skills in working together, learning to think, and acquiring information which should be developed in school, are indeed the foundations for our traditional freedom.

Thank you for coming. We welcome any observations or comments that you might have to make about this program or the school's program in general.

**E. A. Miller — Principal**

## JAMES MONROE HIGH SCHOOL ADMINISTRATION

## MONROE HIGH WELCOMES YOU

This evening we welcome you to the campus of James Monroe High School, your student's education center. You will be interested in the various educational offerings which will enable your students to insure their future.

Department Chairmen will be happy to make an appointment for you to see faculty members during school hours to discuss your student's progress.

It is hoped that you will be able to see all of our exhibits and demonstrations this evening. We are happy to have this opportunity to explain the school program, its purposes, achievements, and needs.

We sincerely appreciate your interest and support.

**Members of Ladies' and Knights' service organizations will be available for information or as guides.**

## ODIN'S HALL

### Annual PTA Cake Sale

It is our pleasure to offer coffee, cake and punch on sale for your enjoyment during the evening in Odin's Hall.

The cakes entered in the PTA sponsored Baking Contest will be on display and on sale.

## SPECIAL NARCOTICS PROGRAM — School Library

Drug abuse is a serious problem among school age youth. This problem is not unique to any single segment of our society, nor is it restricted to a particular locale. There are no boundaries. The problem affects the affluent as well as the disadvantaged youth, the student as well as the drop-out. **LEARN THE FACTS, ATTEND THE SPECIAL NARCOTICS PROGRAM . . . GUEST SPEAKERS . . . QUESTION AND ANSWER SESSION . . . SPECIAL FILMS . . . FREE INFORMATION MATERIALS.**

## LIBRARY

A special invitation is extended to all parents to visit our library and become acquainted with the facilities and library materials available for the students.

With the help of federal funds, our book collection has increased from 13,492 in 1968 to 15,292 in 1969. In addition to books, we subscribe to 114 different periodicals which provide the latest information on science, current affairs, international relations, etc. Space permitting, we attempt to maintain back files of most of the magazines students use with Readers' Guide. In addition we have an extensive pamphlet collection including many different pamphlets on jobs and careers.

Mrs. C. Forman, Librarian

## ART DEPARTMENT

### Building — G

"The artist is not a special kind of man, but every man is a special kind of artist."  
— Marion Downer

In offering a varied art curriculum, we are able to present a balanced art major sequence and also provide non-art majors with a selection that may help them to become creative.

There will be displays and/or demonstrations in the art rooms and patio of G-building.

## BUSINESS EDUCATION DEPARTMENT

### Building — D

In addition to the General Education requirements for all, the students who complete a major sequence should be prepared to accept positions in the business community directly upon graduation. This is accomplished through a sequence of meaningful and applied courses related to the work of a typical business office. A special experimental class titled, "Introduction to Data Processing," is now in the fourth semester—another first for Monroe.

## DRIVER EDUCATION DEPARTMENT

### Building — S

Driver Education has as its main purpose the teaching of traffic accident prevention. This is accomplished by presenting information about traffic laws, the causes and costs of traffic accidents, the psychological and physical makeup of the driver, and discussions on the care and maintenance of the automobile.

We will show a film, "Seat Belt for Susie" — designed to promote the wearing of seat belts to protect against the injuries which result from collisions.

S-7 Mr. Jack Yost, Chairman	Counseling Office Mr. Gerrick Sharrigan
S-6 Mr. William Sarnoff	

On display will be the anthropometric dummies used by the research team at UCLA in the making of the film.

## ENGLISH DEPARTMENT

### Building — E

The communication cycle is fundamental to language instruction. Thus in every English class students read, speak, listen, and write cyclically, constantly redeveloping pertinent skills, understandings, and appreciation. Of course, each subject matter grouping within the English curriculum has its primary focus in this cycle (speaking in drama and speech, writing in composition and journalism, reading in literature and reading skills) but never to the neglect of the other three factors in the cycle. Visit us this evening in laboratories of our specialization and note how we implement the total communication cycle, whatever the particular subject matter stress.

## FOREIGN LANGUAGE DEPARTMENT

Our program is directed toward the progressive development of the ability to communicate effectively through the skills of listening, speaking, reading, and writing. Understanding and appreciation of the peoples of other countries and their cultures are an integral part of all language learning. French, German, Japanese, Russian, and Spanish are offered through the audio-lingual-visual-graphic methodology.

## HOME ECONOMICS DEPARTMENT

### Building — D

Home Economics education is that part of general education that trains for woman's role in modern living. Learning in science and the humanities is applied to seven areas of personal and family living. The basic goal of Home Economics education is to strengthen the home and family unit, and to prepare students for a dual career.

## HEALTH EDUCATION DEPARTMENT

The broad purpose of health education is to develop healthy, vigorous, and well adjusted youth. To achieve this purpose, the Health Education Department gives instruction in the areas of good health practices, desirable attitudes, and scientific knowledge. The American Medical Association stresses good health habits and practices contribute to the intellectual effectiveness of the individual.

## STUDENT COUNCIL — F-1

Student Council, as the representative body of the students, is composed of class and club presidents, commissioners and the Executive Board. Although its most apparent duty is that of organizing school activities, it also serves another important function. By representing student interests and communicating with parents and faculty Council seeks to improve education at Monroe. One area of student life which is presently of interest to parents and students is dress standards. Varying views on this issue will be presented this evening in F1. You are welcome to come and make your opinion heard or ask any questions that you might have.

**Kathy Kelly**  
Student Body President  
Sponsor  
Mr. Jack Taylor

## MUSIC DEPARTMENT

### Building — M

The music curriculum at James Monroe is set up to serve the entire student body as well as those students majoring in music. Generally, our students fall into one or more of the following classifications: (1) performing groups, both vocal and instrumental; (2) listening groups, such as our World of Music classes; and (3) students desiring concentrated study in the areas of harmony and music history.

This evening the active participants will perform for you in M-2 under the direction of Mrs. Shapiro. Vocal groups may be observed during the entire evening.

Mrs. Kautzenbach will be in M-1 throughout the evening to meet with you and discuss the World of Music program at James Monroe.

Mr. Morosic and instrumental groups will be conducting informal rehearsals in M-1 throughout the evening also.

M-1 Mr. Donald Morosic, Chairman      M-1 Mrs. Ruth Kautzenbach  
M-2 Mrs. Judith Shapiro

## SCIENCE DEPARTMENT

### Building — C

It is the purpose of science education to create an enthusiasm and appreciation of the methods and content of science. In the new science curricula being used at Monroe High School, there is an increased emphasis upon experimentation and mathematics. The students are spending more time in stimulating, creative, quantitative laboratory investigations. The result is that more students have had experiences that scientists have every day. And the students have a scientific background suitable in this rapidly advancing field.
